Tattenhall **ITV's 'The Voice' operatic duo, Belle Voci perform**

ITV's 'The Voice' operatic duo, Belle Voci, will be performing an intimate evening of Christmas Carols at St Werburgh's in Chester on 14 December at 7pm.

And there is a Tattenhall link! In fact, their links with the local area are strong. Emily is an ex-Abbey Gate College student and studied Music at Durham. She also worked for a time as a paralegal at Dyne Solicitors in Tattenhall and prepared to study for a law degree too. Sophie, on the other-hand, is an ex-Queen's School student who fell in love with singing when she was selected for one of the school productions, performing Eliza in My Fair Lady.

So, why not support this very talented Operatic Duo and enjoy the most wonderful time of the year with mince pies, mulled wine and all your festive favourites? Tickets now on sale at eventbrite.co.uk (search Christmas with Belle Voci)

Bunbury **Bunbury Singers**

Bunbury Singers is a community choir based in and around the Bunbury area in Cheshire. There are no auditions and new members are always welcome. It is a mixed voice (SATB) choir of around 30/35 members.

The group meets every Monday evening during term time at The Bunbury Aldersey Primary School, School Lane, Bunbury.

Rehearsals are from 7:30pm to 9:15pm (and some members have been known to adjourn to the pub afterwards!) If you would like to join the group, just turn up or contact the Musical Director, Daniel Keen, on: dkeen01@hotmail.com or the choir's Chairman, Mike McDermott, on: mikemere@hotmail.co.uk. You can also find all the information you need about the choir, including current members, concert dates and repertoire, on their website www.bunburysingers.co.uk

Tarvin **Walk Mill**

Ever wondered how a flour mill works? Well go down to Walk Mill, set in the Cheshire countryside and find out! As well as enjoying a guided tour of the mill equipment in action, why not stop a while and have a wonderful lunch or afternoon tea, tasting the delicious home-baked bread and cakes?

In the Miller's Kitchen you can relax and enjoy a speciality coffee with a cake or bread made from flour that comes from the home-grown wheat. Or if it's a sunny day, sit out at one of picnic tables and be lulled by the turning of the water wheel. And if you feel the need to walk off those extra calories, there are a range of interesting and scenic walks through the Cheshire countryside around the Mill. Education and nutrition in one place, what could be better? Find out more at www.walkmillflour.co.uk

Kelsall **Barney's Buddies**

Barney's Buddies meet every Thursday morning from 10am in the Upper Room at the Methodist school-room on Chapel Green. It's an informal drop-in for mums, babies and pre-school children - dads, grans and carers are just as welcome. There's a play time, things to make, stories and songs with Barney the Bear, and a healthy snack for the children.

£1.50 per adult including refreshments, children free. More information from Sue Levitt (01829-741022).

Kelsall Primary School Curriculum Development

By Mr Wearing, Headmaster - Over the past term the staff and pupils of Kelsall Primary School have embarked upon an exciting curriculum development project. The S.T.E.A.M connected curriculum brings together the disciplines of Science, Technology, Engineering, Arts & Maths to engage learning that tackles real life social and environmental problems. Through harnessing these disciplines alongside a core of English and Mathematics, the children and staff have been exploring the theme of 'Reach for the Stars' - teaching and learning has developed to look at flight, space travel and astronomy, to name a few.

The children were proud to share their work with parents and visitors at a recent STEAM Community Day. Here they designed the shell for a super car, made and launched rockets, as well as getting involved with robotics and coding.

We are very proud of our emerging curriculum model and we know that the core skills of numeracy and literacy are connected perfectly to the wider broad and balanced areas

of learning of science, art, design and technology, music and computing to name a few.

It also enables the children to develop these 6 key learning competencies; creativity, critical thinking, communication, character, citizenship and collaboration - all key skills; 'to foster deep learning so that all learners contribute to the common good, address global challenges and flourish in a complex world'.
